BOUTELLE & BURR, PROPRIETORS.

A. C. BOUTELLE, EDITOR.

All business letters should be addressed to Boutelle & Burr, and communications intended for publication should be addressed: "Editor of Fair and Counter."

TUESDAY, OCTOBER 5, 1886.

The New York World heads an article "Our Down-trodden Hog." Whereupon Editor Denslow queries, "Are we to tell that Pulitzer has again been abroad?" The Democratic family in Gotham don't seem to be amenable to any large expenditure.

Gov. Long remarked that the impression left on the mind by this Administration "is a mixture of the ruff of a four dollar pension bill and an excursion in the Adirondacks." That was a fair characterization, but how it makes the Mugwump ps

One of the hotels in Richmond, Virginia, refused to receive a colored member of the Knights of Labor on equal footing with the other members of his order. It was only a few days since that a Bourbon sheet remarked that the negroes enjoyed all the privileges of the white men in the old Opera House. I first spoke to the people of this district of the principles which would control my political course, I have never lied to them. I have done so, however, in order to gain their confidence, and if to-day I take a few minutes of your time to recapitulate them, it is because these principles are the principles of the Republican party and constitute a bond with which we cannot be too familiar.

M. J. Gallagher, one of the Chicago fine workers who was indicted and placed under \$30,000 bonds as an accomplice of the notorious Mackin, has, it is stated, jumped his bonds and left for parts unknown. In addition to his political jobbery he has been robbing the city by means of forged orders. Chicago Democratic politicians are a choice lot.

The New Haven News, an independent journal, commenting upon the nomination of Mr. E. S. Cleveland for Governor by the Democrats, remarks that most of the Governors of Connecticut have been very able and honorable men, "and it is safe to say that none of them have been of such high intellectual weight or of such unblushing political immorality as E. S. Cleveland."

The Ohio Democrats, to catch the labor vote, nominated John McBride, President of the miners' union, for Secretary of State. A large meeting of workingmen has just been held at Glenmont, at which resolutions were passed censuring Mr. McBride for accepting the nomination, disapproving his course, deplored the irreparable harm done to organized labor by such procedure, and expressing unqualified condemnation of all meetings called by McBride in the interest of the Democracy.

Collector Bishop, of Cincinnati, with a working nucleus of 130 subordinates, has packed a County Convention and nominated his son for Sheriff on the Democratic ticket.

The above is from the New York World. The President can hardly wink at this violation of his orders on the ground that the charge is made in the columns of a partisan Republican organ. Possibly, however, this will be excused on the ground that it is that grade of "political activity" permitted by this Administration.

Washington Presidential gossip is to the effect that Cleveland and Hill have patched up a truce on the following understanding: Hill is to help Cleveland secure a re-nomination on the condition that he shall have the Postmaster Generalship. Mr. Vilas, it appears, thinks he will have succeeded in fitting the Democratic heart at the end of his term as headman-in-chief of the Administration and that a reward of merit hopes to secure second place on the ticket. The question arises, however, what is to become of "reform" under this arrangement.

When a member of the Legislature Mr. Andrews' vote was invariably recorded in opposition to any proposition looking to the establishment of a law providing for fortnightly payment of wages, and he also opposed the proposition to regulate the hours of labor of females and children in factories. Now Mr. Andrews is on the Democratic ticket with a representative of the laboring classes running on a platform endorsing all these propositions. The laboring men of Massachusetts will probably want to know about his sudden change of front.

While the New York Evening Post is singing the praises of Collector Magone as a reformer of the most pronounced type, the word comes from Washington that one of his Inspectors took an active part in the Congressional convention that has just nominated Mr. Ferry Belmont. Said Inspector, it seems, was sent to the convention to oppose the nomination of Belmont, and did his level best to execute his commission successfully, but was outvoted. This is a sad blow to our Mugwump contemporary, but it confirms the statement of the World at the time the appointment was made, that it is too much to expect sincere reform from a practical politician like Mr. Magone.

The Boston Globe thinks that the Democrats of Massachusetts have only to make the most of the "present opportunity" in order to secure a victory. The "present opportunity" is the nomination of a gentleman who has nothing in common with the Democratic party, a man who, according to the Boston Herald—authority to speak—will hardly question now that they are in the same boat—was put at the head of the Democratic ticket as a "punch for disgruntled Republicans to rest upon." We had supposed the Globe had the courage of its convictions, but it seems that it has adopted the universal policy of the party, anything to catch votes, even a heretofore despised Mugwump. The action of the Massachusetts Democrats furnishes additional evidence of the bankruptcy of the party in principle and their defeat still will be a most fitting rebuke to hypocrisy.

The New York World tells this story: A countryman, fearing pickpockets, deposited a \$100 bill with the clerk of an up-town hotel for safe keeping. The next day he applied for his money, when the clerk coolly denied any recollection of the matter. The man went to a lawyer, "Get another \$100 bill," said the lawyer, "and go accompanied by a friend, back to the hotel. Apologize to the clerk for your mistake; say it was a defect of memory; deposit the second \$100 in the presence of your friend, and come back to me." The mystified ruralist obeyed instructions. "Now," said the lawyer, "go back alone to the clerk and ask him for the \$100. Know that your friend saw him receive it, he will give back the second \$100 bill. Then take your friend with you next day, approach the clerk, ask him bodily for that \$100, and as there was no witness to your receipt of the second bill, he will be forced to return the first also." The rule proved completely successful. The lawyer sent his bill next day. It was for a fee of \$100. Demands: An intelligent man employed

Internal Revenue Collector Troup denies the charge in the New York Evening Post that he pecked the Connecticut Democratic Convention and challenged that paper to prove its assertions. Now here is an opportunity for the Post to strike a blow for reform. It should prove, if it can, the charge shee that if the President will remove a Bourbon Democrat, who will be useful to him in 1888, for keeping in pro-

A Corrected Telegram.
The statement of Mr. N. B. Lampson, the expert who examined the accounts of the First National Bank of Portland, which was telegraphed from here Saturday, was telegraphed in transmission as follows: "The amount of a certain portion of it unintelligible. Mr. Lampson's name was also garbled in the report, which should have read as follows: 'To the President and Directors of the First National Bank— I have carefully examined the figures of the firm, A. N. Winslow and I am satisfied that his statement accords with the facts and that the amount of the defalcation is correct as far as can be ascertained by the books, and in my judgment the surplus is not stated will not be further impaired. I have also verified the individual deposits so far as the books have been brought in for settlement, as also the accounts of the New York banks.'

Alleged Defalcation of the Post Office.

NEW YORK, Oct. 4. A somewhat significant story is current in regard to the alleged defalcation in the Brooklyn Post Office, but nothing positive concerning it is known. Some time ago Col. Charles Morton, who was a member of the board of commissioners of the post office, disappeared suddenly while an investigation was being made of his accounts. Later he returned, was arrested, charged with having embezzled some \$300, and was confined in the New York City jail. Recently Postmaster McLeer, who succeeded Morton, investigated the case and found that the strong suspicion directed toward him had frightened him into jumping his bond.
